SINCE
1983

OUR RELIABILITY

Our reliability is built on over 40 years of experience, during which we have consistently maintained high Acceptable Quality Levels (AQL). We prioritize our customers' needs, actively adapting our offerings based on their feedback to exceed expectations. This commitment to quality and customer service has established us as a trusted partner in the industry, fostering long-lasting relationships with our clients.

OUR IP CONFIDENTIALITY

- * **Expertise in Packaging and Materials Innovation:** Our team of specialists is dedicated to supporting clients with packaging and materials innovation. We conduct thorough hygiene surveys and audits to ensure compliance with industry standards, while also identifying opportunities to improve operational efficiency. Additionally, we provide training sessions for your personnel, equipping them with the skills necessary to optimize packaging processes and maintain high quality standards.
- * **Client Confidentiality in Designs and Artwork:** We prioritize client confidentiality by restricting access to designs, artworks, and logos to authorized personnel only. This ensures that sensitive information is protected, maintaining the integrity of our clients' intellectual property. Our robust security measures foster a trusted environment where clients can confidently share their creative concepts.
- * **Protection of Trade Secrets:** We understand the significance of protecting trade secrets and proprietary information. Our strict protocols ensure that all sensitive information remains discreet and secure, allowing clients to innovate without concern. This commitment to confidentiality not only strengthens our relationships but also enhances our reputation as a trusted industry partner.

OUR DEVELOPMENT TIMELINE

01 ANALYZE

Week 1 we analyze your current samples.

02 DEVELOP

Week 2 we counter samples.

03 PRODUCE

Week 4 produce samples for machine trials.

04 SHIP

Week 8 is the commercial order.
